

From Pediatrics to Geriatrics, Sunshine Coast Occupational Therapy offers a wide range of services!

To achieve health of mind and body, individuals require optimal human function to maximize productivity. Through assessment, treatment design and intervention, Sunshine Coast Occupational Therapy offers insight into limitations to function, and subsequent strategies to obtain optimal ability. Interventions are evidence based, prioritized according to need, and team focused.

Pediatrics

- Does your child have difficulty printing/reading?
- Do they have trouble focusing on a task?
- Does it feel like they're never listening?

Find out how you can help your child. Sensory and Motor Assessments, Technology Addictions, Attachment Disorders.

Ergonomics

- Sore neck, back, shoulders, wrists?
- Work stressing you out?
- Injured and trying to get back to work?

Pain is frustrating, and reduces worker efficiency and productivity. Functional Assessments, Graduated Return to Work, Cost of Future Care.

Geriatrics

- Are you worried about your loved one's safety?
- Have they recently fallen?
- Are they not getting out as much as they used to?

Find out what your options are. Functional Assessments, Equipment Prescription, Insurance Reports.

***KIDS OUTREACH - We also offer traveling Pediatric Occupational and Physical Therapy services.
